EDUCATION

SASTRA UNIVERSITY

B.Tech - Computer Science and Engineering

CGPA : 8.26

Thanjavur

10/2021 - present

VELAMMAL BODHI CAMPUS

Higher Secondary Schooling

Percentage – 94.8

Chennai

06/2019 – 05/2021

PROJECTS

Recipe Blog App | ReactJs, MongoDB, Expressjs, RESTful API, Axios

github.com/gowthamv210/Recipe-Blog-App

- Built a dynamic food blog platform with the MERN stack, enabling users to explore recipes by category, view the latest additions, and contribute their own recipes.
- Leveraged React for an engaging UI, Axios for real-time data fetching, and Express and MongoDB to handle backend APIs, delivering a smooth, data-driven user experience.

Weather App | ReactJs, RESTful API, Axios, Git, VS Code, Vercel

github.com/gowthamv210/react-weather-app

- Developed a weather application using ReactJS, HTML, CSS for enhancing visualization and user interactions for weather app navigation.
- Utilized REST API like OpenWeather API to fetch real-time weather data and TimeZoneDB API for local time for the specified locations.

Personal Portfolio Website | ReactJs, Git, VS Code, Vercel

github.com/gowthamv210/portfolio

- Developed a dynamic and responsive portfolio website using ReactJS, showcasing personal projects and skills with interactive UI components.
- Implemented features such as a project gallery, contact form, and smooth navigation to enhance user experience and engagement.

TECHNICAL SKILLS

Programming Languages: Python, Java

Libraries / Frameworks: ReactJs

Tools: Git, Github

Database: MySQL

CERTIFICATIONS

Udemy - The Complete 2024 Web Development Bootcamp
